1. Purpose

The City of Clayton receives requests annually for monetary donations to local organizations. The City recognizes that many non-profit organizations serve the community and provide additional resources or programs intended to benefit the public, which is considered "for public purpose". The City may donate to organizations if the intended funds are "for public purpose". The following guidelines are intended to ensure consistent standards are identified and maintained.

2. Scope

To be applied when authorizing public fund donations to non-profit organizations when the organization's mission or purpose is to support the community and not an individual.

3. Procedure

City Council, as part of the annual budget process, may establish an amount for contributions to eligible organizations.

The City Manager or designee may authorize contributions to organizations that will use the funds "for public purpose". Generally, a public purpose has for its objective the promotion of the public health, safety, morals, general welfare, security, prosperity, and contentment of the inhabitants or residents within the municipal corporation.

All requests for donations must be made in writing and must contain the intended use of the requested funds.

The City Council or City Manager shall not be obligated to spend any or all of the appropriated funds.

Any donation request that meets the intent of the policy but may exceed the budgeted line item must be brought to the attention of City Council at least five (5) days prior to authorization.
